

Press Release

March 6th, 2008,

Air Traffic Management (ATM)

Egis Avia and Atos Origin both strengthen their expertise in ATM system engineering

Egis Avia associated with Atos Origin has been selected by the French Air Navigation Services Department (DSNA) to carry out the engineering studies of en-route, approach and airport air traffic management systems.

These engineering activities are conducted in an ever-changing context due to the Single European Sky advent and to the Eurocontrol safety regulatory requirements (ESARR). The first steps focus on the integration of the new flight data processing (Coflight), the improvement of controllers' tools and the reorganization of air traffic control in the Paris region.

Egis Avia, as a reference player in ATM and Atos Origin, as an international player in IT solutions altogether offer services encompassing all engineering aspects: ATM experts, project managers, architects, safety specialists, Human Factors experts, method and procedure specialists. Their process is adapted to customers' needs and complies with state-of-the-art engineering techniques.

This 6 years contract is a logic sequel to a first contract won by the two partners in 2001. It thus strengthens the expertise of both Egis Avia in air traffic management system engineering and Atos Origin in architecture and distributed systems.

ATM	Air Traffic Management,
DSNA	Direction des Services de la Navigation Aérienne,
ESARR	Eurocontrol Safety Regulatory Requirements,
SES	Single European Sky,

Notes:

About Egis

Subsidiary of "Caisse des Dépôts" Group with a workforce of 6,300 individuals worldwide and a 450M€ turnover in 2007, Egis is one of the world leading companies in infrastructure engineering and road, railway, air and urban transport systems including hydraulics and environment. It proposes a global offer including engineering, project deployment and the management of motorway concessions. For more information, visit www.egis.fr

About Egis Avia

In 2006, Sofréavia joined the Egis Group, a subsidiary of « Caisse Des Dépôts » Group, one of the world leading companies in engineering and multimodal transport. Since August 1st 2007, Sofréavia became Egis Avia with a workforce of 180 employees and a 25.2M€ annual turnover. Within a sound and growing group, Egis Avia significantly strengthens its international sales network and its ability to

deal with international financial institutions. Also, it benefits from Egis' successful track-record in the development of major infrastructure projects, particularly in the form of public-private partnerships.

Egis Avia has been successfully managing more than 1000 projects in 140 countries encompassing the following sectors:

- Air traffic management
- Airports
- Air transport

Egis Avia puts an emphasis on providing customer-tailored solutions aiming at increasing operations safety and efficiency, the compliance with international regulation and the optimum use of state-of-the-art technologies.
